

March 30th is for the Palestinians 'Land Day'. Each year they commemorate their expulsion in 1948 and demonstrate against continued expropriation of their land. A call for a 'Global March to Jerusalem' was launched in support of these events. Protesters from all countries march from Lebanon, Syria, Jordan and Egypt toward Jerusalem, because this city, which is a part of the UNESCO World Heritage list, is particularly affected by the Judaisation and ethnic cleansing.

We want to express through this event our solidarity with marches and protests throughout Palestine.
